

November 11, 2020

Dear Residents, Family, Friends, and Staff:

Today, I am sharing a COVID status update with you. We unfortunately had one staff member test positive during our testing on Monday. All residents and all other staff members remain negative at this time.

Sadly, this has put us on a new 14 day quarantine. Compassionate visits are not affected. General visitation must continue outside only.

The CDC has put out information on celebrating Thanksgiving and how to keep yourself and your loved ones safe. We have shared this on our website. We will not be able to host our annual Thanksgiving Dinner with families this year due to the restrictions with COVID, however, we strive to make it a very special day for our residents.

Our website is updated daily with our COVID statistics. You can visit our website at [solarishealthcare.org/locations/Osceola](https://solarishealthcare.org/locations/Osceola).

As always, please let myself or your Angel know if you have any questions.

Sincerely,

Charlene Bedor, Administrator
