

January 3, 2021

Dear Residents, Family, Friends and Staff:

We hope the New Year is treating you well so far. I am writing today to update you on our COVID status. We have been notified that a resident that was sent out to the hospital several days ago for non-COVID symptoms, had tested positive. At this time all other residents and staff continue to test negative.

We thank you for always being so understanding and supportive. We are looking forward to our first COVID vaccine clinic in a few more days to put us on the path to eliminating this virus and returning to a more normal way of life.

Sincerely,

Charlene Bedor, Administrator
