

1/12/23

Dear Residents, Family & Friends:

Welcome to Solaris Healthcare Coconut Creek!

Visitation can be conducted through different means, based on a facility's structure and residents' need. Outdoor visitation is preferred, even when the resident and visitor are fully vaccinated against COVID19, it generally poses a lower risk of transmission due to increased space and airflow. Indoor visitation can occur in a resident's room or designated visitation area. Visits for residents in a shared room should not be conducted, if possible. During indoor visitation, visitor movement should be limited e.g., visitors should not walk around different halls of the facility, interact with other residents, or interact with staff without maintaining social distancing guidelines.

Please visit our website for the most up-to-date information on covid cases.

Before you have an initial visit, please review the education on COVID-19 signs and symptoms, infection control precautions and PPE. Due to the recent covid case, we strongly encourage visitors to wear face mask, as well as to be up to date with the covid vaccine. You can find additional information on covid vaccine and what it means to be up to date.

https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html?s_cid=11369:cdc%20children%20covid%20vaccine.sem.ga:p:RG:GM:gen:PTN:FY21

Please review the videos below, prior to your initial visit. We encourage visitors to be tested on their own before coming to the facility and to be vaccinated. Testing and receiving the vaccine help to prevent the spread of covid-19.

Press 'ctrl' on the keyboard and the link at the same time, to open the videos.
